**Ian Fuller Named Vice President of Operations at
Jubilant HollisterStier Contract Manufacturing**

Spokane, WA: Jubilant HollisterStier Contract Manufacturing is pleased to announce the appointment of Ian Fuller as the new Vice President of Operations.

With over 25 years of progressive management experience in the biotech and pharmaceutical industries, Mr. Fuller brings a wealth of operational and engineering leadership. His recent positions include Senior Director of Global Facilities and Real Estate at Dexcom and Vice President of Manufacturing Operations at Mylan.

As Jubilant HollisterStier's Spokane, WA facility expands, incorporating two new production lines and 250 employees by 2026, Mr. Fuller's expertise is poised to enhance the management and manufacturing aspects of this expansion.

"I am excited about the challenges and the journey ahead and look forward to contributing to Jubilant HollisterStier's advancement in the CMO industry," commented Mr. Fuller.

About Jubilant HollisterStier:

Jubilant HollisterStier LLC is an integrated contract manufacturer specializing in sterile injectables and ophthalmics. Its North American facilities provide dedicated manufacturing services to the pharmaceutical and biopharmaceutical industries.
