In our Proprietary Drug Discovery business, we are working on more than six programs targeting small molecule therapies in the area of oncology and auto-immune disorders with two programs moving to the clinic next year.

During the year, the company reduced its Net Debt by Rs 514 Crore and is focused on further deleveraging by generating healthy levels of cashflows.

Company signed Licensing Agreement with Gilead Sciences to register, manufacture and sell Gilead's investigational drug, remdesivir, a potential therapy for Covid-19 in 127 countries including India, and is working towards launching the drug in July 2020.
